

What is the 8-4-3

Rule of SIP?

The 8-4-3 Rule is a simple way to understand the power of Systematic Investment Plans (SIP) through long-term investing and compounding.

How It Works:

- First 8 Years → Your investment grows steadily ,
- Next 4 Years → Wealth creation speeds up with compounding ,
- Final 3 Years → Returns may grow dramatically compared to earlier years .

- Start Early.
- Stay Consistent.
- Build Wealth Smartly!
